The Leicestershire communityPortals software was developed by Loughborough based web development company <u>Cuttlefish Multimedia Ltd</u> under contract to <u>Leicestershire County</u> <u>Council</u>. It is now available as open source.

The 'Leicestershire Community' web site serves as a distribution point for the community Portals software package and provides a gateway to the various implementations of community Portals that are currently in operation.

### www.leicestershirecommunity.com/

#### Hosted at Leicestershire Community

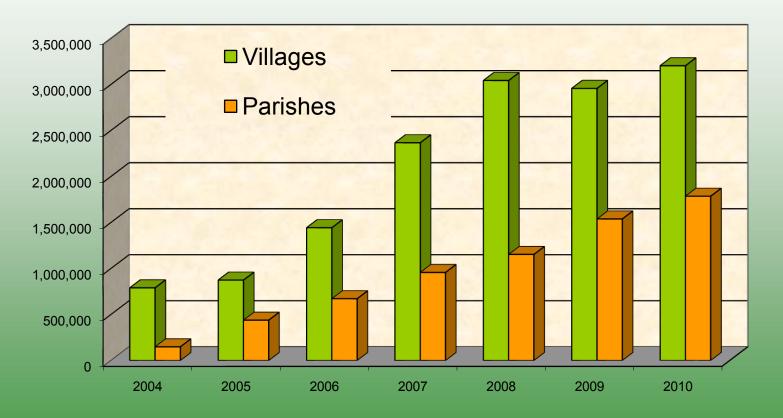

The following sites are all built using the communityPortals software and are supported by <u>Cuttlefish Multimedia Ltd</u> on behalf of <u>Leicestershire County Council</u>.

## Annual page view totals

### **Scaleability**

Not Micro sites!

- Over 9000 registered users
- More than 5 million page views per year
- 4 Districts using the same technology

ERP type system that underpins:

LAA; CAA; Rural Strategy; Sustainable Community Strategy

## Technology

Community ICT CMS; Open Source PHP / MySQL

### Architecture

EA Principles used from day one! Loosely coupled (SOA) Demonstrates benefits of EA approach

"Joins up service delivery across the three tiers of local government with public, voluntary and private sectors."
