

## A simple guide to RSN online spreadsheets – Total Individual Insolvencies Analysis

The analysis of Total Individual Insolvencies presents for a local authority area the rate per 10,000 adult population, the sum of all bankruptcy orders, Individual Voluntary Arrangements (IVAs) and Debt Relief Orders (DROs). The data was sourced from the Department for Business, Innovation & Skills.

<http://www.insolvencydirect.bis.gov.uk/otherinformation/statistics/regionalstatisticsmenu.htm>

To select the authority for which the analysis is required, please follow the instructions below. The spreadsheet automatically propagates the average line with the applicable rural classification average for the selected local authority.

I hope this helps. If you have any comments or suggestions, please contact [dan.worth@sparse.gov.uk](mailto:dan.worth@sparse.gov.uk)
