

## A simple guide to RSN online spreadsheets – Apprenticeship Programme Participation

The analysis of Apprenticeship Programme Participation presents for a local authority area a view over time of the total participation within apprenticeship schemes for that local authority. It additionally provides the programme participation as a proportion of resident population aged 16-64, and compares to either another chosen local authority, or a rural/urban classification. To select the authority for which the analysis is required, and also the comparator, please follow the instructions below.

Using the mouse, select the cell containing either a local authority name or rural/urban classification.

Once the cell is highlighted, a grey square with a blue triangle will appear to the right of the cell.

Clicking on the grey square presents the full list of authorities to choose from and a scroll bar to the right to move up and down the list.

I hope this helps. If you have any comments or suggestions, please contact [dan.worth@sparse.gov.uk](mailto:dan.worth@sparse.gov.uk)
