Future High Streets Fund – Ministry of Housing, Communities & Local Government

The Future High Streets Fund provides £675 million co-funding towards capital projects that bring transformative change. Government want to see the regeneration of town centres through innovative proposals around transport, housing delivery and our public services. Up to £55 million of the Fund has also been allocated to support the regeneration of 'heritage high streets'. More details of this will be announced in due course.

There will be two rounds of the Future High Streets Fund and the first is now open for proposals to co-fund projects and places that have already started to formulate a vision for the future of their town centres. The date of the second round, along with assessment criteria, will be published in due course but it will not open before 2020.

Government will expect an element of co-funding, either on a project basis or to delivery a local area's wider strategy for the high street. This co-funding could either

be public (e.g. from local areas' own budgets) or private finance (e.g. co-financing housing infrastructure). The Fund will contribute up to a maximum of £25 million to each successful place. However, they expect to see a range of project sizes coming forward, many of which are in the region of £5-10 million per town centre.

Local authorities are recognised as best-placed to bid for the funding and develop and deliver proposals. Government expect bidding local authorities to put forward a single, transformative submission covering one high street or town centre in their area. This may comprise of more than one intervention, but that will need to be subject to a strong business case. For example, a local authority may wish to consolidate its town centre offer across a number of high streets to provide additional residential or commercial space. In that case government would consider applications which saw interventions across the network of high streets assuming there was a sufficiently robust strategic business case.

The deadline for submission of expressions of interest is 22 March 2019.

Community Centres & Village Halls grants – Trusthouse Charitable Foundation

Trusthouse is interested in applications for capital projects at community centres in the most deprived urban areas and village halls in remote and economically deprived rural areas.

They expect that you will be providing a range of activities for all ages and abilities which help to promote community cohesion and address local problems of isolation, poverty, lack of local facilities, transport and other issues of relevance to your area.

They interpret 'community centres' in the broad sense, so you might be a church, sports facility or other building which offers a range of activities throughout the week which all the community can access.

The Foundation will consider applications for new buildings; upgrading, renovating or extending buildings; improving or creating outside space (but not car parks). You will need to have secured a minimum of 50% of the costs of the project before you start an application.
