### **Single Homelessness Accommodation Programme (SHAP) – Department for Levelling Up, Housing & Communities**

The objective of SHAP is to increase the supply of high-quality accommodation with accompanying support to address gaps in homelessness pathway provision. SHAP

will be targeted at two groups: those with the longest histories of rough sleeping or the most complex needs, to help them recover from rough sleeping and its associated traumas; and vulnerable young people (age 18-25) at risk of or experiencing homelessness or rough sleeping. The focus will be on longer-term accommodation. Given the likely support needs of these target groups, supported housing, Housing First and housing-led schemes will be within scope.

Councils will play a key role in framing the need for SHAP funding at a local strategic level. Councils will be supported through co-production to submit a Strategic Gap Analysis identifying gaps in local housing pathway provision relating to SHAP's target groups. Councils can deliver directly, or work with housing associations, charities and other organisations in the subsequent development of specific Bids.

To receive SHAP capital funding via Homes England the landlord of the homes to be delivered is required by law to be registered with the Regulator of Social Housing as a registered provider (RP). Where organisations wishing to submit a capital Bid are unable to meet this requirement, Bids may in limited circumstances be submitted directly to DLUHC.

Bidding will open in January 2023 and remain open through a period of continuous market engagement (CME). The CME period will last for up to twelve months, subject to available funds. Applications will be considered on quarterly assessment dates within the CME period (or more regularly as necessary). Dates will be specified once CME begins.

This funding aims to help communities across the UK to address climate change.

They're looking for projects that focus on the link between nature and climate. They want to fund projects that use nature to encourage more community-led climate action. They are interested in projects that can do at least one of the following:

- show how creating a deeper connection with nature will lead to changing people's behaviours and greater care for the environment.
- show how by bringing nature back into the places we live and work, we can help communities to reduce or adapt to the impacts of climate change.

They're looking to fund between 12 and 15 projects with up to £1.5 million over 2 to 5 years, with most projects between £300,000 and £500,000. Development grants of £50,000 to £150,000 over 12 to 18 months are also available.

### **Youth Investment Fund**

The Youth Investment Fund (YIF) is made up of £288m capital and up to £80m revenue grants and is funded by the UK Government.

Phase 1 was launched in January by Children in Need on behalf of the UK Government delivering £12 million of funding for small-scale projects and expressions of interest are now invited for phase 2.

Using modern methods of construction (MMC) and other innovative construction techniques, as well as supporting redevelopment projects that expand youth service provision, the YIF will achieve savings on facility running costs, so that resources can focus on activities that enrich young people's lives.

This second phase will support projects in selected eligible areas in England to level up youth provision, assessing and distributing grants so that local youth facilities and services can be the best they can be.

It is being delivered by Social Investment Business, in partnership with the National Youth Agency (NYA), Key Fund and Resonance.

Capital and revenue grants will be awarded over the life of the Youth Investment Fund (2022-2025). They expect to hold grant committees through until March 2024.

### **HS2 Community and Business Funds – Groundwork UK**

Groundwork is working with High Speed Two (HS2) to deliver HS2 Community and Business Funds to help with the disruption that will be caused by the construction

In October 2014 the government announced two funding programmes to help offset the disruption of Phase One on local communities and businesses – the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF).

In January 2018, the then HS2 Minister announced an additional £5 million is to be added to the CEF and BLEF funding pot for those disrupted during construction of the Phase 2a scheme from Birmingham to Crewe. This brings the overall total of CEF and BLEF combined for Phase One and Phase 2a to £45m.

£40 million is for communities experiencing disruption from the construction of Phase One and £5 million is for communities experiencing disruption from the construction of Phase 2a. The Funds will be available during the construction period and for the first year of operational HS2 services. The Funds will support good quality bids that meet CEF and BLEF criteria, and funding will be available throughout this time period.

Both funds (CEF and BLEF) will award money from the same funding pot and so the amounts allocated for each Fund will depend on the number and quality of applications.
