Urban Tree Challenge Fund – Forestry Commission

The Forestry Commission has launched the Urban Tree Challenge Fund, with grants available over the next two years to make urban areas (cities and towns) greener and help meet the government's target of planting one million urban trees by 2022.

Initially the Urban Tree Challenge Fund is open to block bids, which are applications with a value of at least £500,000 that contain multiple small planting projects. In year two individual applications will be accepted for smaller, single planting sites, and prospective individual applicants can complete an expression of interest form to register interest in applying in 2020.

The fund provides up to 50% funding of standard costs for planting large and small trees and their establishment costs for three years following planting, such as the costs associated with buying a tree, planting it in a grass verge, basic protection and the labour required to plant it. Establishment payments will then support the cost of weeding, watering and checking trees during multiple visits over a three-year period.

Anyone is able to apply for the fund as long as they either have full management control over the land or signed consent from those who do for the duration of the agreement.

Applications are open until 28 July 2019.

Community Centres & Village Halls grants – Trusthouse Charitable Foundation

Trusthouse is interested in applications for capital projects at community centres in the most deprived urban areas and village halls in remote and economically deprived rural areas.

The Foundation wants to support community centres and village halls which are at the heart of small, deprived communities. They expect that you will be providing a range of activities for all ages and abilities which help to promote community cohesion and address local problems of isolation, poverty, lack of local facilities, transport and other issues of relevance to your area.

They interpret ‘community centres’ in the broad sense, so you might be a church, sports facility or other building which offers a range of activities throughout the week which all the community can access.

The Foundation will consider applications for new buildings; upgrading, renovating or extending buildings; improving or creating outside space (but not car parks). You will need to have secured a minimum of 50% of the costs of the project before you start an application.
