Landowners, land managers and public bodies can apply to the England Woodland Creation Offer (EWCO) for support to create new woodland, including through natural colonisation, on areas as small as 1 hectare. EWCO opened for applications on 9 June 2021 and replaces the Woodland Carbon Fund, which closed for applications in March 2021.

The grant is administered by the Forestry Commission and is funded through the Nature for Climate Fund.

There are four types of payments available under EWCO:

- support for the capital items and activities to establish new woodland, at 100% of standard costs
- 10 years of annual Maintenance Payments to help establish the young trees once the capital works are complete
- contribution towards the actual cost of installing infrastructure to either enable the current and future management of the woodland, or to provide recreational access
- optional Additional Contributions where the location of the woodland and its design will deliver public benefits. You can apply for multiple Additional Contributions on the same land where it touches the right spatial layer and the design is compatible

EWCO is a criteria-based, competitive scheme, with funding offered on a first-come, first-served basis.
