June 2022

*A monthly bulletin facilitated by your membership of the **Rural Services Network** highlighting a selection of current funding opportunities*

Platinum Jubilee Village Halls Fund – Department for Environment, Food & Rural Affairs

England's village halls are set to benefit from a major new renovation fund launched by the Government on 28 May 2022 to mark Her Majesty The Queen's Platinum Jubilee.

At the heart of rural life and communities, village halls are home to fitness classes, coffee mornings, community groups, jumble sales, art clubs and post office services – even in the most remote of locations. They often provide the only place for a community to meet and socialise locally and are vital in tackling loneliness, providing a lifeline for those who can't travel long distances.

The new £3 million grant fund aims to provide a significant boost to rural communities with 125 village halls set to benefit, allowing vital modernisation and improvements to take place.

Details on how the funding will be administered will be announced in due course.

Energy Redress Scheme – Energy Saving Trust

Energy Saving Trust has been appointed by Ofgem to distribute payments from energy companies who may have breached rules. The funds can pay for anything from making a home more energy efficient, to providing advice that helps consumers keep on top of their bills.

Energy Saving Trust has developed an open application process for charities seeking funding from the Energy Redress Scheme. Successful projects will be selected with input from an independent panel of experts and could cover a range of locations across England, Scotland and Wales.

The amount of funding available through the scheme varies throughout the year and will be reviewed on a quarterly basis in October, January, April and July. Eligible charities that have registered interest in the scheme will be notified when funds become available.

The minimum grant that can be requested is £20,000 and the maximum amount is the lesser of £2 million or the total value of the current fund.

The scheme can fund projects lasting up to two years, can fund 100 per cent of the project cost and can cover revenue and capital measures.

- Carbon Emissions Reduction Fund is targeted at projects that can help domestic energy consumers participate in the just transition to Net Zero CO2 emissions. The fund awards grants between £50,000 and £500,000.
