Case study

# From paper to digital: How Rochdale streamlined free school meal support

"The shift to a digital system has not only improved efficiency but also ensured that families receive their vouchers in a way that best suits them.

The feedback has been overwhelmingly positive, and it's reassuring to know that this approach has made a real difference during challenging times."

**Rochdale Borough Council**

## The challenge

Ensuring that children eligible for free school meals continued to receive their entitlements over the school holidays, while removing barriers presented by traditional systems.

## The solution

Evouchers digital platform, which was convenient, easy for both schools and people to use, and catered for people who could not access vouchers electronically.

# What does Evouchers do for Local Authorities and Housing Associations?

Send funds seamlessly and support your communities instantly.

Save time by reaching thousands of recipients, no matter their location.

It's free, no hidden costs or subscription fees.

Promotes independence and choice for your recipients.

Secure and flexible delivery methods via email, text or postal.

No stigma, standard gift cards, managed through dedicated app.

Complete control and visibility of a voucher's life cycle.

Detailed auditing and reporting functions.

# Essential support where it's needed most

Food

White goods

Electricals

Clothing

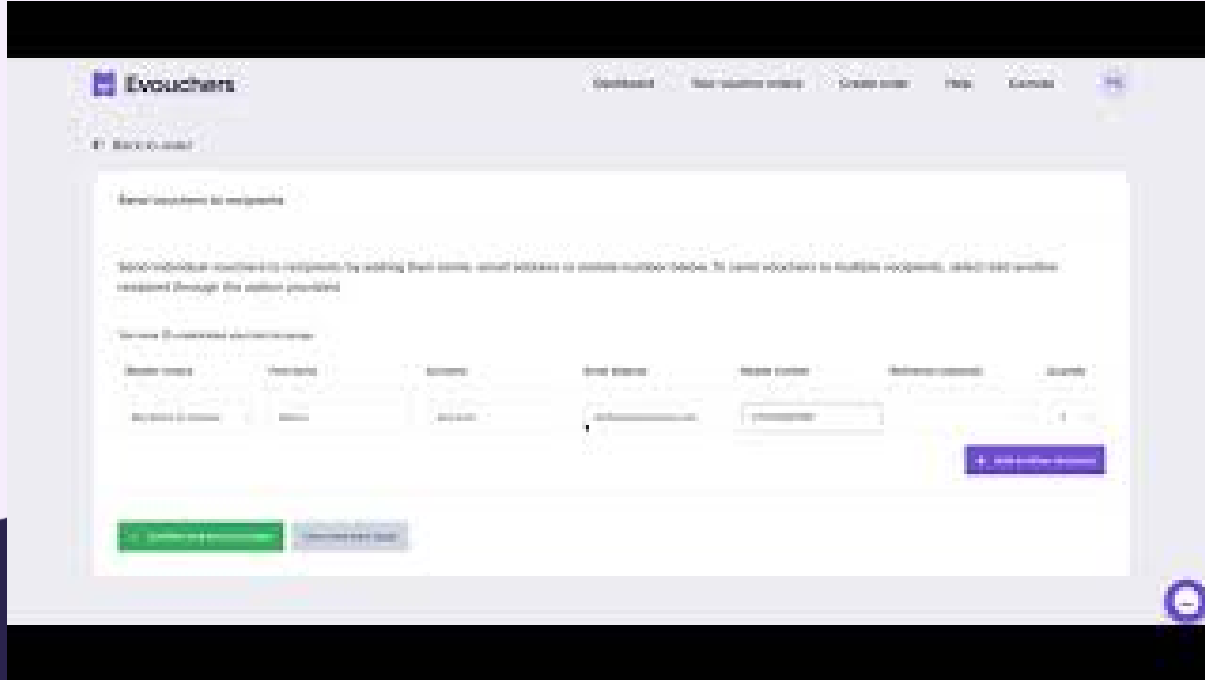

Home essentials

# Send your voucher in a few clicks

The screenshot displays the 'E-vouchers' web application interface. At the top, there is a navigation bar with links for 'Dashboard', 'New voucher order', 'Create order', 'Help', and 'Cancel'. Below this, a breadcrumb trail shows 'E1: Send voucher'. The main content area is titled 'Send vouchers to recipients' and includes a descriptive paragraph: 'Send individual vouchers to recipients by adding their name, email address or phone number below. To send vouchers to multiple recipients, select the number of recipients through the option provided.' Below the text is a table with columns: 'Phone number', 'Email', 'Name', 'Send voucher', 'Phone number', 'Email address', and 'Quantity'. The 'Send voucher' column contains a dropdown menu with 'Phone number' selected. The 'Phone number' column has a text input field containing '09000000000000000000'. The 'Email address' column has a text input field containing '0900000000'. The 'Quantity' column has a dropdown menu with '1' selected. A purple button with a plus sign and the text '+ Add another voucher' is located to the right of the table. At the bottom of the form, there are two buttons: a green 'Send to recipients' button and a grey 'Cancel and stop' button. A small circular icon with a question mark is visible in the bottom right corner of the interface.

Phone number	Email	Name	Send voucher	Phone number	Email address	Quantity
09000000000000000000	0900000000		Phone number			1

"We would strongly encourage any organisations with established hardship funds to consider using Evouchers. The platform offers a wide range of support options, and the process is streamlined."

"Evouchers has given our team the ability to respond very quickly to crisis situations, and the flexibility to use text/email or print physical vouchers allows us to support the whole community."
