

# CHARGE MY STREET

Community Benefits Society

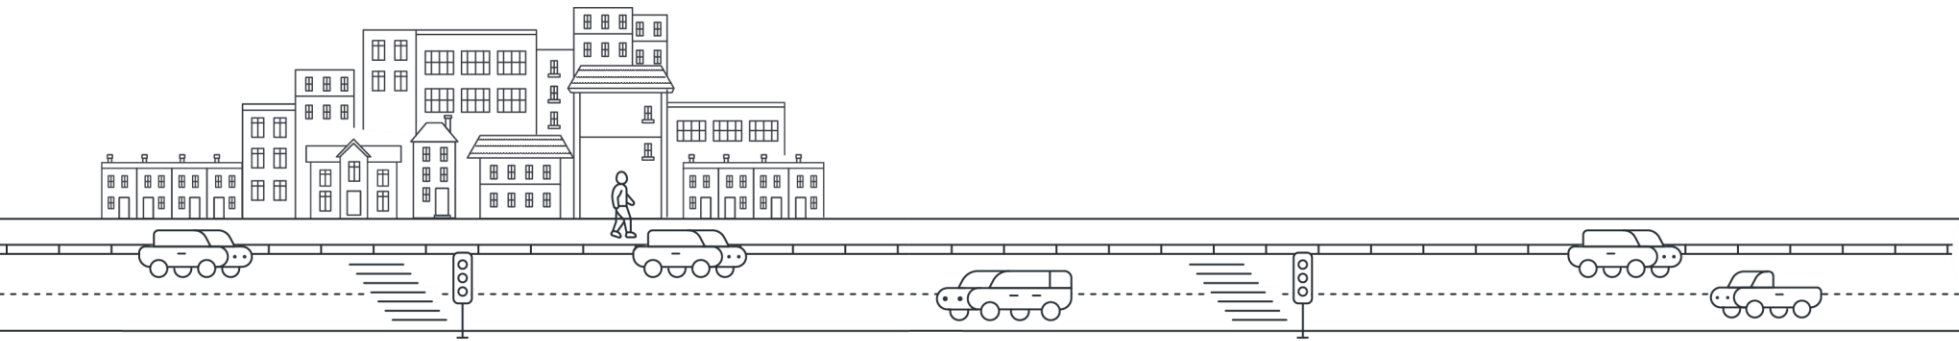

# What is the background?

- Lancaster and most towns and cities are becoming congested and polluted.
- Currently EV take up is low. Why? (Standard problems)
  - Cost of EVs
  - Requirement of off-street parking
  - Home based charging
  - Range of EVs
- UK government Proposal for Internal combustion engine cars
  - 40% + of Lancaster does not have off private street parking
  - Most major cities around 40% and northern towns as well

# Who are we ?

- We are a community benefit society  
(Eight existing Directors from all walks of life)
- We managed to raise in the first round £39,000
- Charge points are paid for through a combination of Grants and community raised finances.
  - Grants INOVATE, OLEV
  - Community Finances -Seed Enterprise Investment Scheme (SEIS)
  - Endorsed by Community Shares
- Round 1 consisted of four sites - three successfully installed with launch events being planned/completed

# The Process

Citizen  
needs  
charge  
point

Citizen  
maps and  
contact  
potential  
host sites

Community  
building interested  
in charge point on  
car park
