Continue to make the rural voice heard

By identifying upcoming key issues for rural communities and lobbying government from a rural perspective. Hot topics over the coming months include:

- Fine tuning our rural asks
- Devising a Rural Manifesto ahead of the national elections
- Reviewing emerging government policy

We'll be analysing announcements as they are made, canvassing views from members and embarking on a reinvigorated Revitalising Rural Campaign.

Targeting Our Rural Asks

Fair Funding for rural areas

Rural Affordable Housing

Access to Rural Health and Care

Rural Economies

Rural Transport

Rural Net Zero

Rural Connectivity

Rural Planning

Rural Economies

Bringing rural issues to life

Whilst we recognise the importance of hard figures, grounded in evidence it's also really important to tell a human story. We will be launching a survey in the new year in partnership with Citizens Advice on the rural cost of living crisis.

If you have any case studies please share them with us.

Over to you

What would you like to see us do more or less of?

Thank you
