RURAL,
SERVICES
NETWORK

Delivering services to rural areas requires you to think differently, to find innovative solutions to service delivery and to challenge the status quo. This has become even more difficult in the austerity years amid reducing budgets and increasing demands on services.

The Rural Services Network is the national champion for rural services, ensuring that people in rural areas have a strong voice. We are fighting for a fair deal for rural communities to maintain their social and economic viability for the benefit of the nation as a whole.

We include over 130 local authorities in addition to over 170 rural service provider organisations and a Community Group of over 10,000 Parish Councils and Community Organisations.

Our network will help you to understand the issues facing your area and communities by joining up in networking, representation and highlighting areas of best practice.

Perhaps the main benefit to joining the RSN, is that together we have a stronger voice for our rural areas, we work to benefit you and your communities.

By being part of the Rural Services Network – Assembly Membership, you will have access to a wide range of support and information to help you find the answers you need....here are just 10 of the key services you can take part in and receive for your membership, providing excellent value for money.
