Q4. Please list the three most significant impacts of changes in service provision affecting your local area over the last 3 years.

There were a range of responses to this question which can be collated into four main areas:

Negative Impact	Issues with Roads
<p>Reduced bus service in rural areas Reduced street lighting Fewer community grants available More isolated and vulnerable people Total loss of meals on wheels service leaving elderly/vulnerable people struggling in rural areas No support for rural access to services Removal of bus service subsidies and free school transport for post 16 students Limitation of council tax increases Expectation of residents re Planning (particularly renewable energy) Need to consider withdrawal from non mandatory services. Reduced street lighting Reduced grass cutting of roadside verges Need for more benefits help for residents means all applications take longer than previously Loss of community police Negative impact on young people 26-18 of lack of school or public transport which dictates their choice of education or training. Withdrawal of workers and students early morning and late evening non subsidised bus by bus company and county council decision not to supply – impact reduces access to work and study in Bournemouth and Poole. Police cover is increasingly provided by PCSOs who do not have powers of arrest-impact is reduced ability to deal with vandalism, traffic offences (driving through pedestrianised areas) Reduces buses to rural areas Reduced library services Reduction in library/mobile services Reduction in rural bus subsidy Ability to get an appointment with GP Appaling ambulance service Stricter review of qualification for care funding</p>	<p>Highways maintenance expenditure not kept up with demand Highways management reduced More damage to cars due to roads Poor road maintenance Reduced road maintenance to include drain and gulley cleansing Better repair of potholes and other highway problems Reduction in road maintenance</p>
Positive Impact	Additional Charges
<p>Increased membership of leisure facility following refurb.</p>	<p>Garden waste collection through a subscription Introduction of on street car parking charges</p>

<p>The county sharing offices with the district. Improvement on the Town Hall Volunteer libraries Volunteer/private sector tourist information provision Handing over of parks and play areas to parishes/communities New refuse contract New Recycling arrangements Improved leisure facility Improved recycling services Huge improvement in recycling collection Move towards computer contact rather than availability of walk in services Opening of a new fire station (but closure of others) to widen the area within which target response times can be met. Most have stayed the same.</p>
